Transforming Carbon for Tomorrow's Innovations

BE CARBON RICH

Engineer biochar and biomass residuals into standardized pellets your customers value.

Your downstream is your customer's upstream.

Customers need pellets they can handle, transport, and use with confidence. For nearly 60 years, Mars Mineral has helped producers create market-ready pellets with field-proven Pin Mixers and Disc Pelletizers.

Biochar Pin Mixer

Disc Pelletizer

Engineered for consistency

- ✓ Uniform pellet size
- ✓ High pellet strength
- ✓ Consistent quality
- ✓ Better handling
- ✓ Less dust

We start with your material.
You end with a high-value pellet.
